CALL FOR PAPERS

**36TH INTERNATIONAL CONFERENCE ON CEMENT MICROSCOPY
SPONSORED BY THE INTERNATIONAL CEMENT MICROSCOPY ASSOCIATION (ICMA)
CO-SPONSORED BY MAPEI, S.p.A., MILAN, ITALY
April 14 – 17 2014, MILAN, ITALY (VENUE TO BE ANNOUNCED LATER)**

The International Cement Microscopy Association (ICMA) is proud to announce its Thirty Sixth (36th) International Conference on Cement Microscopy to be held in the famous City of Milan, Italy on April 14-17, 2014. Topics for the papers include:

- ◆ Microscopic structures of building materials, including clinker, cement, hydration products, lime, gypsum, light and heavy weight aggregates, concrete, slag, fly ash, etc.
- ◆ Application of different types of microscopes for the quality control of clinker, cement, concrete, aggregates, etc.
- ◆ Effect of additives and admixtures on the microstructure of cement and concrete and the relationship between the microstructure and concrete performance.
- ◆ X-ray Diffraction Analysis (XRD) and other related modern equipment in the study of portland cement and related materials and the relationship between the microstructure and the mineralogical composition.

Authors of all papers dealing with the above-mentioned topics are requested to submit their abstracts for acceptance to:

Mr. Lou Jany
ICMA Program Committee Chairman
